WOMEN IN THE FIGHT

New Faction in the Strike of the Coal Miners.

CAMPERS' WIVES IN THE FIELD.

They Are Doing Missionary Work Among the Wives of the Men at Work—A Proposed Campaign Against the Central Pennsylvania Mines—More Organizers to Be Sent Into West Virginia.

PITTSBURG, Aug. 7.—The coal company has just discovered a new sort of missionary work among its employees. Wives of many of the campers are in the field now. They have been arriving for several days until now there are about 20 of them scattered about through the Plum, Sandy and Turtle Creek settlements. The women are from the McDonald, Carnegie and Wheeling division sections, and while the men are at work do missionary work among their wives. They have access to the workmen's houses, but the men are denied this. Deputies are stationed all along the property line, with instructions not to allow a solitary man to pass into the house range.

The campers claim that the effect of the female missionary work will be apparent in a day or so. Many of the Plum Creek men are expected to join the movement after pay day, Monday. The strikers say they would be out now, but that they want to get as much money as possible ahead, so as to have something to fall back on.

Whether or not the strikers will be able to get the Plum Creek men to stop is becoming a more serious question than the strike leaders at first thought. Unlike the other digging settlements about all of the Plum Creek men live in company houses, right about the pits and right on the company's land. The workmen do not have to leave the Dearth property to get into the mines, and the strikers get no chance to stop them on the road. The deputies do not allow any one to get near the houses, and the workers and strikers are entirely without communication except by the women. It now seems the Plum Creek siege will be much longer and a much harder battle than at any of the other mines.

The marchers continue to make gains as shown by the number of men at work in the Dearth mines. At Sandy Creek only three men are at work. The camp is thinning out and the men are going to the Plum Creek camp because their presence is not needed at Sandy Creek. The output at Sandy Creek is only two pit cars and the mine is absolutely dead. The output of the three mines is as follows: Plum Creek 29 cars, though the strikers say only 21; Turtle Creek one car lump, one car nut and one car slack, Sandy Creek two pit cars.

The proposed campaign against the mine owners of Westmoreland county and the operators of Central Pennsylvania, which has been delayed, is now an assured fact. The strike leaders decided on it definitely at Camp Conference yesterday, and a big move will probably be made next Wednesday. The whole affair will be considerably on the order of the famous Coxey "Com-muniqué" tour. As already constituted the plans propose a direct march through the whole territory where mines are being operated until Clearfield county is reached. Camps will be left at each of the Dearth mines, at Canonsburg, at Bunola and any other place that may seem necessary to keep the mines closed which appears before the crusaders leave. The leaders estimate that with what will remain behind in the camps at least 8,000 men will be kept constantly in the movement.

Efforts are being made to introduce beer and whisky at Camp Determination by outsiders. This has been going on for two or three days now, and some of the strikers have been taken down to East Pittsburgh and filled up on all the beer they could drink. The danger of this to the miners' cause is fully realized by the labor leaders, and a sharp lookout is being kept to find out who is responsible for the efforts to get the strikers intoxicated. Last night a barrel of whisky was shipped to the camp from Braddock. It had been paid for at the other end and all freight charges had also been settled. When the whisky was delivered, Captain McKay ordered it taken back to Braddock as quickly as possible. It was shipped back. The strikers do not know who sent it.

Definite orders have been issued from Harrisburg to local officers of the national guard of Pennsylvania to hold themselves in readiness for immediate service. This order, which arrived several days ago, is being complied with to the letter, and the day and night address of each officer, together with the number of the nearest telephone, has been forwarded to headquarters. However, these officers have expressed it as their opinion that the miners have behaved themselves most orderly and that the guard is not at all necessary as yet.

Yesterday evening Squire Slemmons rendered his decision in the riot and unlawful assemblage cases against Patrick Dolan and others. He holds Dolan, Jacob Aufheiter, Paul Trimmer and Edward McKay in \$300 bail each for the September term of court. Bail was entered for all. Those against Cameron Miller, William Warner and Edward Shaw were dismissed.

ORGANIZERS FOR WEST VIRGINIA.

President Ratchford Will Send a Hundred Men Into That State.

COLUMBUS, O., Aug. 7.—President Ratchford is determined to tie up West

Virginia, if such a thing is possible, and to that end is rushing all of the available men into that state as organizers. The quietness which exists in the several states makes it possible to secure the services of organizers of recognized ability, and these are being placed in the important coal centers of West Virginia.

It seems likely that President Ratchford's prediction that there would be 100 organizers in West Virginia by the end of the week is likely to be fulfilled.

The miners' officials are highly pleased with the meetings held throughout the mining districts during the week, feeling that much good will be the result.

STRIKE EXTENDING.

Kanawha and New River Miners Resolve to Quit Work.

CHARLESTON, W. Va., Aug. 7.—A joint meeting of miners was held at Hendley yesterday evening, composed of delegates representing both Kanawha and New River mines. The mines were not all represented, there being only 18 men present at the meeting. They passed resolutions demanding the short ton weight and 60 cents per ton for digging. They decided to quit work at once and remain idle till their demands were met.

There is not much importance attached to this meeting as several meetings of this kind have recently been held in both the Kanawha and New River regions, and similar resolutions passed, but the men in the mines have persistently disregarded the resolutions passed at these meetings and kept on at work. By Monday next it will be known how far the miners will respond to the call to quit work.

Reaching an Agreement.

PITTSBURG, Kan., Aug. 7.—At the conference here yesterday between the coal operators and the executive board of the miners' union, it was practically agreed to give the miners their choice of all grades of powder at the present rate of \$2 a keg; to establish a semi-monthly pay day; to pay \$3 per day for day and \$1.50 per yard for entry work; and to provide a check weighman at every shaft.

PARLIAMENT PROROGUED.

Important Occurrences During the Session Referred to in the Queen's Speech.

LONDON, Aug. 7.—Parliament was prorogued yesterday. Concerning the important occurrences during the session, the queen's speech of prorogation says:

"The united influence of the six powers signatory to the treaty of Paris was earnestly exerted early in the year to dissuade the King of Greece from war, upon which he unhappily desired to enter."

"Though they failed in this endeavor, they were able to bring about an early suspension of hostilities between the belligerents and open negotiations for peace. A formal treaty has not yet been signed, but there is good ground for believing that all of the more important matters in controversy have been adjusted, and that in return for an adequate indemnity the territory conquered by Turkey will, with a slight modification of the frontier, be restored to Greece."

Another paragraph of the speech announces the conclusion of a treaty of commerce and friendship with Abyssinia.

As regards the new imperial policy her majesty said:

"The presence of representatives of the colonies and the Indian empire at the ceremonies held in celebration of the 60th year of my reign has contributed to strengthen the bond of union between all parts of my empire, and additional proof of the attachment of the colonies to the mother country has been furnished by the fiscal legislation of Canada and the contribution which the Cape Colony, following the example of Australasia, has offered to our naval defense."

The speech proceeds to express sympathy with the people of India, who have been stricken with famine and plague; bestows high praise upon the Indian officials, and concludes with a formal acknowledgement of the legislation enacted by parliament.

NEW CURE FOR DRUNKENNESS.

Inoculation of Horse Blood Said to Accomplish the Object.

SAN FRANCISCO, Aug. 7.—Dr. Fred W. D'Evelyn, head of St. Luke's hospital has just made public the results of 15 years' experiments, by which he claims to have found a certain cure by inoculation of horse blood for drunkenness.

The doctor thoroughly introduces alcohol into a horse and then draws off the blood into a sterilized vessel, where it is mixed with chloral to influence the clot. After settling 24 hours it is subjected to a freezing process, then shaken for half an hour and decanted. The result is a slightly sticky, pale, straw colored fluid which he calls equisin.

Another Expedition Gone to Cuba.

JACKSONVILLE, Fla., Aug. 7.—News has been received here that a filibustering expedition left one of the Florida keys for Cuba a few days ago. A schooner stopped off from Knight's key, loaded arms and ammunition, and sailed outward to meet the tug Alexander Jones of Wilmington, N. C., to transfer the cargo. The Jones then steamed toward Cuba.

WARRENTON, Va., Aug. 7.—Major R. Taylor Scott, attorney general of Virginia, died here shortly after midnight. The deceased had been ill with typhoid fever for some weeks.

A REVIEW OF TRADE.

R. G. Dun & Company's Weekly Business Report.

SMALL NUMBER OF FAILURES.

Comparisons Made With Other Years—A Large Yield of Wheat Which Is Raising Good Prices—Iron Industry Active. Some Activity in the Wool Industry. The Demand For Cotton Ginning.

NEW YORK, Aug. 7.—R. G. Dun & Company's weekly review of trade says: Four years ago, Aug. 5, 1893, the first number of Dun's review was issued, with failures in that month amounting to over \$60,000,000, while in the month just closed failures have been only \$7,117,727, the smallest in any month since 1892. The statement of failures by classes of business for July and for 46 months shows that in manufacturing failures have been smaller than in any other month except one, and in many branches of each department smaller than in most months of which records exist.

The pessimists who pronounced reports of gain fictitious and misrepresenting have grown weary of their dismal failures and begin to see the dawn of better days. Last month was the first for four years of which the volume of business reported by clearing houses was larger than in the same month of 1892, and the telegraphic dispatches from all parts of the country given this week show a gratifying improvement. This is partly due to a large yield of wheat, which is bringing good prices, though the crop is probably not as large, nor are the prices thus far as high, as in 1892, but of cotton the price is higher and the yield probably larger than in that year. Other farm products are realizing greater prices, and the possible decrease in yield of corn may help to market the enormous supply brought over from last year.

Liquidation of a powerful combination in wheat brought a reaction of 3 cents, but a gain of 1-1/2 followed the next day.

It is the wrong season to expect much from industries, and yet there has been material increase in the number of hands employed in the iron manufacture because of the satisfactory adjustment of wages dispute with the Amalgamated association, and the opening of numerous establishments which have been waiting, while the coal miners' strikes seem each day more likely to end in a permanent settlement beneficial to both parties. Meanwhile the demand for most finished products is steadily increasing, the feature this week being large pipe contracts for Russian oil fields, Sumatra and Germany. While consumption does not yet equal the capacity of the works in operation, and prices of iron and steel products average slightly lower, the situation is altogether more hopeful.

In minor metals the consumption of tin equals the receipts, so that prices do not change, and the visible supply is practically the same as a month ago, while exports of copper have been heavy and prevent a decline of lake below 11 cents, and realizing in lead has caused only a slight decline to 3.80 cents.

The sales of wool, as comparative returns by months show, bear little relation to the actual consumption in manufacture, but heavy liquidation since the new tariff bill was enacted gives the impression that some dealers are no longer confident of a speedy advance. Nevertheless prices have risen during the past few weeks nearly 1 cent per pound. Manufacturers are buying but little, though they are rapidly increasing the output, and are able to obtain an advance of about 10 per cent in prices of goods with rapidly increasing orders.

The temporary curtailment of output by cotton mills continues, but does not yet bring improved prices for products, although the demand is generally gaining.

Failures for the week have been 237 in the United States, against 240 last year, and 29 in Canada, against 32 last year.

ON HABEAS CORPUS PROCEEDINGS.

Umpire Hurst Taken Out of Prison to Umpire a Ball Game.

ST. LOUIS, Aug. 7.—Tim Hurst, the League umpire, who was arrested for assaulting a Cincinnatiian with a beer glass, was released yesterday in bonds of \$500, a writ of habeas corpus being issued by Judge Murphy. The bond was signed by ex-Alderman Cronin and Nicholas Griffin.

Hurst umpired the Pittsburg-St. Louis game yesterday. At noon Hurst received a message from N. Ashley Lloyd, treasurer of the Cincinnati club, stating that the chief of Cincinnati police had expressed his willingness to have Hurst go to the ball grounds under constabulary escort, and after umpiring the game return to the Four Courts to await the arrival of officers, who will take him back to the Ohio metropolis.

Chief Harrigan refused to recognize the telegram and to release Hurst, whereupon the writ of habeas corpus was obtained.

Brute Frank of a Friend.

BRAZIL, Ind., Aug. 7.—John Ferguson, a Scotchman, of Cardonia, was sitting in a store here when a friend came in and in a playful manner pulled Ferguson's head back and drew a knife across his throat from ear to ear. It was his intention to use the back of the blade, but by mistake he used the sharp edge, which produced a terrible wound, scratching the jugular vein, but not opening it. Ferguson will recover.

SHERMAN INTERVIEWED.

The Secretary of State Again Back in Washington.

WASHINGTON, Aug. 7.—Secretary Sherman has returned to the city from a brief rest of two weeks at Amagansett, L. I. He appears refreshed and improved by his brief respite at the ocean. The secretary does not anticipate any important developments in pending diplomatic questions while the president is away on his vacation.

Secretary Sherman denies the recent statement from San Francisco, that Minister Sewall had instructions to establish a protectorate over Hawaii in the event the senate failed to ratify the minister's action would be if some overt act were committed by the Japanese, the secretary said in that event Minister Sewall might raise the American flag if he had special instructions to that effect. As to whether Mr. Sewall has such instructions Secretary Sherman did not say.

Secretary Sherman said that the United States would not guarantee the carrying out of the terms of arbitration between Hawaii and Japan if the decision of the arbitrators were against the former. That was a matter between the countries in interest. If the treaty of annexation is ratified before the arbitration is concluded then the arbitration failed, the secretary explained. He left the inference that the matter of Japan's claims against Hawaii might then be a special subject of legislation by congress.

"Mr. Secretary, you have seen the reiterated reports that you intend to resign," suggested the reporter.

"Yes," replied Mr. Sherman, smilingly, "while at Amagansett I was very much resigned."

He intimated that there was as much ground for the present reports of his resigning as there had been for previous reports to the same effect.

LETTER FROM ALASKA.

Plenty of Gold There, But It Is Very Hard to Get.

PORTLAND, Me., Aug. 7.—Captain Miles Standish of Montreal, who has been spending the summer in Alaska, has written a letter which was just received here. In this letter he says that the situation on the Klondyke is not very dissimilar to other gold fields. The yellow metal is there, he says, but it does not lie around the ground in chunks waiting to be scooped up. It can only be secured by patient and uncommonly laborious placer mining, interspersed with many weary miles of tramping around from pocket to pocket.

He further says that the journey to the "diggings" from Juneau is an enterprise likely to pall the stoutest heart. Beyond all this, winter is already beginning in that region, and any one who starts must stop over at Juneau until next May. There is not food enough in all Alaska to keep the people who are planning to go there for a month. He also says the largest part of the Klondyke region is in Canada without "stretching an elastic boundary line an inch," and adds that the Dominion police will have something to say about Yankees coming over there and taking away all the gold.

LAYING DUST WITH OIL.

Novel, but Successful Experiment of a Jersey Railroad.

NEW YORK, Aug. 7.—A dispatch to The Herald from May's Landing, N. J., says: The recent discovery of Chief Engineer J. H. Nichols of the West Jersey and Seashore railroad that crude oil applied to the ground along railroad tracks would effectually lay the dust to work far better than was first expected.

Both lines of the railroad leading from Camden to Atlantic City are being thoroughly saturated for a distance of six feet on both sides of the track. The oil is applied on much the same plan as streets are sprinkled with water and recently an oil train with sprinkling apparatus sprinkled more than 20 miles of track. The work will be completed in a few days. One sprinkling a year, at a cost of \$80 per mile, it is claimed, will lay the dust effectually, but two applications may have to be made. The entire Pennsylvania system, it is said, is to be sprinkled with oil as speedily as possible.

Indiana Woman Suicides in St. Louis.

ST. LOUIS, Aug. 7.—Mrs. Lena Davis of Hammond, Ind., who has been visiting her sister, Mrs. James Higgins of this city, for the past few weeks, committed suicide in a horrible manner yesterday. She took three ounces of a 95 per cent solution of carbolic acid and suffered excruciating agony until death ensued. It is stated that Mrs. Davis had trouble with her mother-in-law in Hammond, Ind., and that it preyed upon her mind and caused her to kill herself.

Shot Her Husband.

NASHVILLE, Aug. 7.—Yesterday afternoon, in the office of Magistrate W. W. Martin, at Decherd, in this state, Mrs. Charles Olmstead, while applying for a warrant for her husband, was threatened by him with death if she persisted in trying to have him arrested. Suddenly Mrs. Olmstead drew a pistol and shot him in the stomach, inflicting a mortal wound. They are comparatively strangers in the town, having recently come from Michigan.

Fire in a Printing Establishment.

OMAHA, Aug. 7.—Fire last night in the Rees Printing company's establishment did \$25,000 damage to stock and plant and \$5,000 damage to the building. Other losses, small to individuals, will aggregate \$10,000. Everything fully insured.

AGED COUPLE ROBBED

Their Farmhouse Broken Into by Three Masked Men.

OCCUPANTS CHOKED AND BEATEN.

The Arrival of a Neighbor Frightened the Desperadoes Away—Brakeman Badly Mangled—Singular Freak of Lightning. Young Man Cured of a Copperhead Snake Bite—Other Ohio State News.

BARNESVILLE, O., Aug. 7.—Three masked burglars broke into the farmhouse of John Lyons, an aged Irish citizen residing south of this place, during the night and robbed them of what money and other valuables they could find.

Lyons and his wife live alone in a secluded place, and the burglars forced an entrance to the house by battering in the door with a scantling. The occupants of the house were in bed and were choked and beaten in a cruel manner to compel them to give up their little savings. While two of the men stood guard over them the third ransacked the house, securing \$25 in money.

A neighbor who was hurrying by the house while the burglars were at work, hearing a scream from Mrs. Lyons, went to the house just in time to see the burglars run away.

Mr. and Mrs. Lyons are prostrated from their cruel treatment.

Cured of a Copperhead Snake Bite.

WINCHESTER, O., Aug. 7.—Thomas Brooks, living near New Hope, was bitten on the ankle by a copperhead snake. He was given a quart of whisky and in addition the carcass of a young chicken was placed on the wound. In five minutes after the application the flesh of the chicken turned black. Another placed instead was also slightly discolored. Between the applications of whisky and chicken the young man's life was saved and he is now on the road to recovery.

Brakeman Badly Mangled.

SARDINIA, O., Aug. 7.—William Hall, a freight brakeman on the Cincinnati, Portsmouth and Virginia railroad, while making a running switch with the engine and an empty stock car, missed his footing and fell in front of the car, the wheels passing over his right leg between the ankle and knee. The leg was badly mangled. He was also found to be badly injured about the head and back, and it is thought can not recover. He is a single man and resides at Amelia.

Went to Sleep on the Track.

VALLEY CROSSING, O., Aug. 7.—While a westbound Norfolk and Western train was waiting here, Brakeman David Hughee sat down on the end of a tie and presumably went to sleep. An engine struck him, knocking him away from the track, but injuring him about the head and hips. He was removed to St. Francis hospital.

Singular Pranks of Lightning.

WEST LEBANON, O., Aug. 7.—Lightning played singular pranks at the home of Squire Samuel Snyder, near here. It struck his house, shattering a portion of it, followed a wire washline to a barbed wire fence, knocked down the fence and line, then jumped to the apple trees in the orchard, destroying many of them.

Charged His Brother With Forgery.

CINCINNATI, O., Aug. 7.—Edward Salter has been arrested charged with committing forgery. The prosecuting witness is his brother, W. K. Salter. The amount named in the alleged forged check, which was cashed on Albert Schumm, a shoe dealer, was \$10.

Lightning Destroys a Barn.

TIFFIN, O., Aug. 7.—A large barn on the farm of Emanuel Lonsway, was struck by lightning and with contents destroyed. One horse was killed by the shock and a horse pasturing in a nearby field was also killed. Insurance light; loss heavy.

Child Injured.

NEW PHILADELPHIA, O., Aug. 7.—Annie, the 5-year-old daughter of Mr. and Mrs. Tomson Fribley of this city, fell from a stepladder to the ground, sustaining a double fracture of the right forearm, and the dislocation of the right elbow.

Injured in a Runaway.

WARREN, O., Aug. 7.—Rilmon P. Munson of this city received terrible injuries in a runaway. He was dragged many rods, with his head striking the pavement. It is feared that he can not recover, as he is 74 years old.

Paper Changes Hands.

ALLIANCE, O., Aug. 6.—The Alliance Semi-Weekly Leader has been purchased by W. R. Wadsworth, formerly mayor of Hubbard, Trumbull county. The paper will be strictly Democratic, on the "16 to 1" plan.

Lumber Train Wrecked.

BELLAIRE, O., Aug. 7.—A lumber train on the Bellaire, Zanesville and Cincinnati railroad was dived yesterday evening by a coupling beam breaking on the front car, turning seven cars over into a ditch.

Shattered the Plate in Her Hand.

NILES, O., Aug. 7.—While sitting in her home here Mrs. Chris Miller was surprised to see a plate held in her hand shattered to pieces. Lightning had struck the house. Mrs. Miller was not hurt.

ABANDON THE GOLD STANDARD.
 That's What English Royal Agricultural Commissioners Suggest to Relieve Hard Times.

LONDON, Aug. 4.—The Royal Commission on Agriculture has issued a report suggesting various palliations for the existing depression in agriculture, which the commission attributes to the general and persistent fall of prices, and to foreign competition, which is not likely to abate.

The Commissioners are very much divided in opinion with reference to a remedy for falling prices.

Ten of them, including Hon. Henry Chaplain, President of the local Government Board, and Hon. Walter Hume Long, Conservative member for the West Derby, signed a supplementary report suggesting the abandonment of the gold standard and a conference to arrange for the reopening of mints abroad and in India and the restoration of silver, either wholly or partially, to the position it occupied prior to 1873.

Marvelous Results.
 From a letter written by Rev. J. Gunderman, of Dimondale, Mich., we are permitted to make this extract: "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist Church at River Junction she was brought down with Pneumonia succeeding La Grippe. Terrible paroxysms of coughing would last hours with little interruption and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery; it was quick in its work and highly satisfactory in results." Trial bottles free at J. James Wood's drug store. Regular size 50c and \$1.

THE WHEELERS.

Items of Interest Gathered in Local Cycle Circles—A Bicycle Carnival Suggested.

Don't scorch.
 Don't oppose nature.
 Don't zig-zag your wheel.
 Don't ride until depressed.
 Don't think you own the streets.
 Don't ride immediately after meals.
 David Dye has joined the Cleveland club.
 Don't drink alcoholic beverages during long rides.
 Don't forget to give a new cyclist plenty of room.
 Don't ring your bell except to give notice of your approach.
 Don't ride at the expense of nerves, muscles and internal organs.
 Don't attempt to accomplish feats for which the body is not prepared.
 Don't let your pride force you to keep up with the balance when you feel tired.
 Don't attempt to ride rapidly by an electric car standing to unload passengers.
 Don't forget in turning corners to the left always keep to the outside of the street.
 Don't expect pedestrians to get out of your way. Make it your business to find a way around them.
 Don't fail to remember in turning corners to the right keep as far out as possible without trespassing on the left side of the road.
 Don't overlook the important courtesies when meeting other cyclists, pedestrians and vehicles—keep to the right. In overtaking and passing them keep to the left.
 Don't fail to always ring your bell in overtaking riders and pedestrians to give warning of your approach. This does not mean that they are compelled to get out of your way.
 Don't when riding straight ahead vary your course suddenly to either side without first assuring yourself that no other rider is close in your rear on the side toward which you turn.

There will be a night ride to Flemingsburg Wednesday or Thursday next.

Henry Gabby and Miss Sudie Childs were at Lewisburg this week on their wheels.

Mr. Frank S. Wiley and Miss Eugenie Belle Murphy went to Augusta this morning on wheels.

The Frank Owens Hardware Company reports foursales this week. This is a good showing for the time of season.

Porter Skinner and M. F. Williams were out Friday night at Lewisburg on their wheels, and it is needless to say they had a good time.

The Maysville riders ought to give another carnival to encourage aspirants of fancy and graceful riding and also help the interest in wheeling along.

Captain Martin and Garrett Thompson went to Lewisburg Friday afternoon,—the Captain to attend the convention and Garrett to see—the pretty girls.

M. F. Williams has quite a good thing for mending single tube tires. He has tried it successfully on tires after all other preparations failed. Ask Orlando Cox and he will tell you all about it. He intends to manufacture and sell to the bicycle trade.

WOW! YEOW!!
 The Republican Convention at Louisville Next Week Will Be Red Hot if This is Attempted.

LOUISVILLE, Ky., August 5.—Plans are being made to introduce a resolution at the coming state Republican convention condemning Governor Bradley in no uncertain terms for his alleged conduct in the Senatorial race last winter. One of the most prominent Republicans in the State will present the resolutions, which he has prepared with the approval of the other Republican leaders, and the convention will be asked to pass it. It will be in the nature of a roast for Governor Bradley. It is said a speech will be made in connection with the presentation of the resolution which will create something of a sensation.
 Though Dr. W. G. Hunter has announced that he will not attend the convention, it is certain that he will try and control matters that transpire. He has able assistants, and these are leaving no stone unturned. It was at first thought best to completely ignore Bradley, but

this, it was alleged, would not be half as humiliating as the condemnation of the convention for his refusal to indorse Hunter for Senator, or at least his failure to keep hands off in the race. It will be stated pointedly that Bradley prevented the election of Hunter, and some inside history may crop out.

The Hunterites have determined that Bradley's name, politically, shall be Dennis from this on, if it is in their power to make it so. The whole as proposed is cut and dried. It has been a matter of gossip among Republicans for several days, and those who profess to know say that the convention will certainly pass the condemnatory resolution by a good majority.

THE L. and N. earned \$625,435 the fourth week of July, an increase of \$108,140 compared with the corresponding period in 1896. The increase for the month of July was \$162,725. The earnings for the month were \$1,780,325.

DAVE STAHLER, a merchant of Portsmouth, caught the largest channel catfish Thursday ever taken out of the Ohio River at that point. It tipped the scales at 120 pounds. Mr. Stahler had a terrific struggle before he succeeded in landing it.

A SHOOTING affray between two young negroes, Ike Donaldson and Kirby Young, took place at Poplar Plains, and resulted in both being dangerously wounded. Donaldson will probably die. The trouble started over Young patting the cheek of Donaldson's sister.

WHEN you see Murphy, the jeweler's stock of "diamonds" and "gold watches," you will be convinced that he carries the "largest" stock. When you learn his prices you will be convinced that his prices are "lower". He never "misrepresents goods." All are "warranted."

BATH County Democrat: "Wm. G. Dearing, of Flemingsburg, who deserted his party for McKinley and Pugh last fall, has received his reward. He was given the Republican nomination for Circuit Judge at Maysville last Wednesday. That's as near as Billy will ever be Judge. Judge Jas. P. Harberson will attend to him sufficiently next November."

THE very appearance of Sutherland's Eagle Eye Salve signifies that this remedy is new and original in itself. It is manufactured on an improved method. The many miraculous cures of long standing that are being accomplished by its use emphasizes its importance as the greatest cure known for any and all kinds of sore eyes. For sale at Chenoweth's.

PORTSMOUTH TIMES: "Dr. Alexander, the race horse man who got into trouble at New Boston last week and later got into jail, is awaiting the coming of a friend with cash. The Doctor says he is a dentist from Maysville, Ky., and that he expected to get \$200 in cash before this. He has got enough in the teeth in his mouth to pay his fine, but he can't realize ready cash on it."

Have Your Babies

Been fitted out with white goods for the season? We have some beautiful white cotton fabrics especially appropriate for them, and wonderfully cheap. They are "mill ends," running from two to ten yards in length, neat stripes and checks and plaids, both Nainsooks and India Linens. They are perfect, but of course less than full prices and worth in the regular way at least a half more than we ask for them. Also a lot of short lengths—one to five yards—white diaper at 3 and 4 cents a yard, according to width; a great bargain. Some special values in White Flannels also.

Saturday Night Specials.

Lisle thread and white Garter Elastic, one inch wide, best quality. Regular price 10c.; special price 5c. a yard. Turkish Bath Toilet Soap, three kinds, 1c. a cake. We immeasurably regret disappointing some of our patrons occasionally on Saturday night, but the response to our advertisement sometimes overwhelms us. However, we will take every precaution hereafter to have plenty to go around.

D. HUNT & SON. TEACHERS::WANTED.

WILLIE'S FLOP.

His Great Services to His Party Were Not Paid For, Hence His Change of Heart.

[Flemingsburg Times-Democrat.]

*** We feel it to be our duty as the editor of a Democratic paper to expose all forms of treachery and unfaithfulness in the party, and when a man, who has been trusted and honored far above his merit by his party, plays the role of Benedict Arnold and attempts to deliver his party to the enemy for a reward of pelf or place we feel that it is our imperative duty to fitly characterize such base treachery. This we did in a very mild way last week in calling attention to the nomination of W. G. Dearing by the Republican convention last week for the office of Circuit Judge. We well remember, as do others, that on one occasion, in a speech at our court house, he enumerated the great services he had rendered to the Democratic party, and added: "I expect the Democratic party to pay me for it." No sentiment of devotion to principle, but all greed and personal self-seeking. Failing to secure a fat office at the hands of Cleveland and not being pushed forward by those who knew him, he determined to make a deal by which he might promote his political and private interests, and hence the change of heart last fall. Is such a man to be trusted in the position to which he aspires? And is his name so sacred that his treachery and bad faith should not be alluded to? Surely not. The people have a right to be informed as to the character of the man who asks them to place their interests in his hands, that they may judge of his fitness. This information we shall endeavor to give them, no matter how distasteful it may be to the subject or his new political allies.

Acetylene Gas.

We are now prepared to place on the market our machines for generating acetylene gas. These machines are adapted for lighting stores, factories, churches and private residences. Small towns and farmers can now have gas as well as those in the cities, as each consumer controls his own little gas plant, which is quite inexpensive. We guarantee to furnish six times as much light at less than half the expense of ordinary gas, electric light or kerosene lamps. A first-class agent is wanted in every county to sell our machines. TOLEDO ACETYLENE GAS CO., Toledo, Ohio.

Park Theatre.

A large audience was out to see the show last night. Several clever amateurs appeared in conjunction with the regular performance. There was also a funny watermelon contest. Friday night is a success.

The star feature of next week's program is Messrs. Helf and Yost in their original sketch entitled, "Nothing But Money." This is the highest salaried team that has yet appeared here.

Mass at St. Patrick's Sunday at 7, 8:30 and 10 o'clock.

Big show, fireworks, tight rope ascension at Park to-night.

MR. JOHN PEEB, of Millersburg, has been quite ill this week.

For a full line of pure drugs call at Ray's Postoffice Drug Store.

FIRE INSURANCE.—Pickett & Reespess, successors to Duley & Baldwin.

LIFE insurance policies bought and sold by T. J. Willison, 47 Blymyer Building, Cincinnati, Ohio.

MR. ED. HUNTER threshed 1,300 bushels of wheat from forty acres of land on his new farm in Bourbon County.

FAYETTE County farmers are holding their wheat for an advance to 80 cents. They were offered 75 cents Thursday.

LUCINDA LACY, charged with petit larceny, was tried before Squire Miller Friday and sent to jail for twenty days.

M. E. CHURCH, SOUTH.—Sunday school at 9:15 a. m., preaching at 10:30 a. m., union service at 7:30 p. m. Everybody invited.

THOMAS FITCH is in jail at Vanceburg on the charge of attempting to shoot the Rev. Joseph Jourdan while the latter was in the pulpit.

MISS AMY KANE, who has been confined to her home for the past week with an attack of quinsy, is getting along very nicely and rapidly recovering.

Does it ever pay to buy any cheap stuff in the jewelry line? You know it doesn't. Ballenger carries no "trashy" jewelry. His stock is the best to be had. Goods warranted.

The grandson of the late Col. Goggin, Mr. L. G. Horton, now of Bourbon County, is an aspirant for Assessor of that county. May success follow him, is the wish of his many Mason friends.

The managers of the opera house have been instructed by the company to make some necessary repairs, purchase a stage carpet and to get the house in readiness for the fall and winter season.

MRS. AMANDA RAND SMITH, daughter of Rev. J. Rand, died Thursday morning at Lexington, of congestion of the brain, aged forty-five years. Her illness was recently mentioned in the BULLETIN.

ELIZA SMITH, aged about eighty-five, a colored inmate of the County Infirmary, was overcome by the heat this week and died Thursday. She was sent to the infirmary from the Mayslick neighborhood.

THE City Council of Flemingsburg has decided that by the terms of the new constitution of this State the Fleming County Prohibition law expires September 1st, 1897, and that they will license saloons after that date.

River News.

It is said the White Collar Line will put the Telegraph back in the Pomeroy trade.

Bonanza for Pomeroy and Queen City for Pittsburg will pass up to-night. Stanley down Sunday.

The Tribune says the Bonanza beat the Queen City a week ago to-night in the run from Cincinnati to Portsmouth, but the Queen City was right after her rival.

Something to Know.

It may be worth something to know that the very best medicine for restoring the tired-out nervous system to a healthy vigor is Electric Bitters. This medicine is purely vegetable, acts by giving tone to the nerve centers in the stomach, gently stimulates the liver and kidneys and aids these organs in throwing off impurities in the blood. Electric Bitters improves the appetite, aids digestion, and is pronounced by those who have tried it as the very best blood purifier and nerve tonic. Try it. Sold for 50c. or \$1 per bottle at J. J. Wood's drug store.

We Must Make Room.

In anticipation of a big Fall trade and realizing that goods pertaining to our lines will advance (a great many have already) we bought early and largely. We are already beginning to receive shipments; moreover,

IT WILL NOT BE LONG BEFORE OUR GREAT LINE OF MEN'S SHOES WILL COME IN

so you see we must make room. Now if you will look in our windows and see the line of Suits we are offering at \$10 you will assist us in making room. All of our fancy Cheviot Suits in checks, plaids and stripes—Suits that we sold at \$18, \$16.50 and \$15—go in this sale. No house in the State ever did or ever will offer a line of Suits like these for the price,

\$10

It is the greatest sacrifice sale we ever made, but as our patrons will be benefitted and it secures us room and money, we will only be too glad to have you take advantage of this sale. We have no room to quote prices on more medium grades, but the entire stock will be sold at proportionate prices. Please bear this in mind:

NO SUIT WILL BE SENT OUT ON APPROVAL AND NO SUIT WILL BE CHARGED—ONLY CASH WILL BUY THE GOODS DURING THIS GREAT SALE.

Money, however, will be cheerfully returned if goods don't suit upon home examination.

GENERAL PHISTER.

An Interesting Letter Telling of the Many Wonderful Things He is Viewing in the Windy City.

CHICAGO, Ill., August 5, 1897.
Editor B. Bell: Just came in from lunch, after riding over fifty miles in various directions, including Pullman, where are maintained the cars of Chicago and contains many thousands of people, nearly all directly or indirectly interested in the success of the cur. While passing through the place, one is struck with its beautiful artificial lake, half mile long and one-quarter mile wide, surrounded by beautiful lawns covered by flowers of rare beauty and fragrance; another great attraction is the fine row of houses for miles on each side of street, none less than two stories and fine enough for our President. The streets are one hundred feet wide and houses set back thirty feet in front beautiful grass and sweet smelling flowers. All the houses are brick and alike.

Another sight that awed me into silence was at least 1,000 men and some women neatly clad and with intelligent faces going home to an honest earned dinner. Others were seated on the lawn or park with a nice lunch spread upon a white cloth on nature's table, the sweet green grass.

This part of the city is about ten miles from the center of Chicago and has a population of 16,000. All the houses were built and are owned by Mr. Pullman and the company.

From there we swiftly glided to other parts of the Windy City, on streets twenty miles long, straight as a gauge (a by word familiar to us from our childhood). The last fifteen years this little city on Lake Michigan (fifty miles wide by eighty long) has increased in population over 1,000 a week, now more than 1,200.

When down in the city my son, who was my escort, made some excuse and took me into a gilded saloon, the devil's place. We looked not, we touched not, the nocker. Later he took me into a better place where all the delicacies of the season were in tempting array before us. Phister-like we indulged and the inner man was refreshed and the stomach satisfied.

The next place we went was where the President selected the Secretary of the Treasury, Mr. Gage, the President of the First National Bank. We were politely shown through the bank. They employ 213 clerks.

One word about the prairies, I have traveled on the cars twenty-four miles one way and fifteen the other, which is the boundaries of the city as yet, and truthfully I have never seen a hill two feet high. One I thought was very near the mark; if I had measured I think it would have been one foot, eleven inches, seven-eighths and one-sixteenth. My son wanted to take me by one of the lake vessels to Milwaukee; I told him no, for you see the waves roll higher than my head.

Chicago claims a population of two million. She has many houses here from ten to twenty stories high. The Masonic hall is twenty-two stories high. Her streets are thronged with people and if it was not for the police, the cars would not be able to move a peg. They can stop anything but a mail wagon. Churches here are as fine as anywhere. I have attended several times, they were all crowded, and such sermons. One from any one of them is worth more than a hundred from some others.

Last Sabbath we went up to Manhattan Beach, a bathing resort; 1,000 were enjoying its luxuries both men and women, in bathing suits; ten thousand men and women were to see them in their happy sport.

On my walks around, I have seen many pretty women, but not to compare to the beautiful girls of Maysville.

CHARLES PHISTER.

FIRE INSURANCE.—J. C. Everett.

Many think

when it was said to the woman: "Tomorrow shall thou bring forth children" that a perpetual curse was pronounced, but such is not the case. True, dangers lurk in the pathway of the expectant mother and should be avoided.

"Mother's Friend"

so prepares the system for the change taking place that the final hour is robbed of all danger and pain. Its use insures safety to the life of both mother and child, and makes childbirth easy and recovery more rapid.

"Mother's Friend" is the greatest remedy ever put on the market, and my customers praise it highly.—W. H. KING & CO., Whitewright, Tex.

MINISTER A MURDERER.

Little Mamie Standiford Dies of Her Wound.

WASHINGTON, Ind., Aug. 7.—Rev. John Walstein, who shot little Mamie Standiford, the 3-year-old daughter of James Standiford, a well-known farmer, at Concord Christian church at Epsom, eight miles east of this city, is still at large and has not been seen since he made his escape from the church.

The child, as reported, died yesterday afternoon, after much suffering, but it is said that Standiford, the father, was one of those who advised the preacher to arm himself, and that he has said Mr. Walstein may come back without prosecution by him. Though Walstein has many friends, the feeling of the majority seems to be bitter against him at present.

Peculiar Affliction.

TERRE HAUTE, Ind., Aug. 7.—Robert L. Woods, a brakeman on the Evansville and Terre Haute railway, is suffering from a painful and peculiar affliction. Two days ago while on his run a fly lodged in his right ear, and struggled so hard that it reached the drum. Other remedies failing, he used sweet oil, which killed the fly, but its adhesive qualities caused the body of the fly to adhere to the drum. Decomposition set in, and so far Mr. Woods has failed to secure relief, while the pain almost drives him insane.

Much Grain Leaving Galveston.

GALVESTON, Aug. 7.—Grain for export is beginning to arrive here in lively style. One hundred and sixty-five cars have come in during the past 24 hours. Three vessels with engagements of 440,000 bushels will leave here before Saturday night, and a large amount of grain is due to arrive within the next six weeks. The continued appreciation in the price in wheat makes it difficult for buyers to secure as large amounts for export as they wish, but the average amount to reach here seem to be no less than 500 cars daily.

Another Fireman a Victim.

CHICAGO, Aug. 7.—There is little doubt now that the man who was carried into the river by the stream of grain from the elevator at the time of the explosion was Thomas Monohan, the fireman who drove Chief Swenite to the fire. The chief says he is certain Monohan was standing in the neighborhood at the time of the explosion. He has not appeared since.

Two Horses Cremated.

GREENFIELD, Ind., Aug. 7.—At 4 o'clock yesterday morning a large barn belonging to George Potts, one and one-half miles north of this city, was totally consumed by fire, including all farming implements. Two valuable horses were burned to death, and one was badly injured. The loss is \$2,000; insurance, \$1,400, in the Hancock Farmers' Insurance company.

Mennonites Migrating.

LAPORTE, Ind., Aug. 7.—Plans have been made for an exodus of Mennonites from Ohio and Indiana to Georgia, where options are held on a large tract of land to be utilized for colonization. Rev. J. S. Lehman and a committee are now in the south perfecting arrangements for the removal of the sect.

Crazed by the Heat.

CROWN POINT, Ind., Aug. 7.—John Wise, the 15-year-old son of Walthias Wise, who was crazed by the heat several days ago, and sought refuge in flight, has been found after five days' search, hidden in a cornfield some miles south of his home, where he remained without food or water. He was completely exhausted and to all appearances a raving maniac. Steps have been taken for his transfer to the Logansport hospital, his condition showing no improvement.

Fined For Swearing.

BRIDGETON, N. J., Aug. 7.—The authorities in this city have placed a tax on profanity, which comes near to being prohibitive. Precedent has been placed at \$1 an oath, and no reduction is made for oaths by the string. A citizen swore twice Wednesday, and was promptly hauled into court, where he was fined \$2. No one since has been rash enough to swear outside the confines of his home or club.

The pain that sometimes strikes a man at the most inopportune moment is due to indigestion. It may come in the midst of a dinner and make the feast a mockery. It is a reminder that he may not eat what he chooses, nor when he chooses.

He is a slave to the weakness of his stomach. A man's health and strength depend upon what he gets out of his food. This depends on his digestion. Remove the obstruction by taking Dr. Pierce's Pleasant Pellets. They are a positive cure for constipation and its attendant ills—headaches, sour stomach, flatulence, dizziness, biliousness and "heartburn." The "Pellets" are very gentle in their action. They simply assist nature. They give no violent wrench to the system. They cause no pain, nor griping.

Send 21 one-cent stamps to cover cost of mailing only, and receive free a copy of Dr. Pierce's Medical Adviser. Address, World's Dispensary Medical Association, Buffalo, N. Y.

INDIANAPOLIS, Aug. 7.—A. S. Elbert, the colored physician of this city who has been offered the appointment as consul at Bahia, South America, said that he would not accept. He said: "Since my return from Washington, after careful consideration and consultation with my family and friends, I have decided not to accept the position tendered me as consul at Bahia." Dr. Elbert declined to give any reasons for his decision.

THE GRAIN MARKET.

New York.

Aug. 6.—Cables came in higher to-day. Options, as a consequence, got away with a good start, but after the first hour the buying was well met and values worked easier. The foreign inquiry was limited. Cash wheat ruled firm.

Cincinnati.

Aug. 6.—Grain was rather scarce to-day, and the wheat market was generally quiet. Wheat was very quiet at a decline in prices. Corn was in light demand at previous prices. Oats were fairly active and steady. Wheat—Sales: 300 bushels, 75c.; No. 2 red nominal at 76c. Corn—Sales: 1 car mixed ear, nearly yellow, track, 29c.

St. Louis.

Aug. 6.—Wheat—Cash, 81c.; August, 82c.; December, 81c. Corn—Cash, 2c.; bid; September, 25c.

Baltimore.

Aug. 6.—Wheat—Cash, 81c.; September, 81c.; 81c. Corn—Cash, 2c.; September, 31c.

Chicago.

CINCINNATI, Aug. 6.—Wheat—The pit crowd seemed to have their fill of excitement and to-day settled down to a normal business. Outsiders were not trading to any appreciable extent. Cables indicated no change in the foreign situation, except that conditions were getting more acute. Liverpool opened lower and closed 3/4 higher. On the strength of this advance Chicago opened up 1 1/2 point.

No great purchase stories were told by foreigners to-day. Wheat is moving in the west, but the dealers who bargained on buying and waiting for higher prices are generally disappointed because farmers that are able to do so are universally "waiting and holding" themselves.
